## Introduction of The Hong Kong Foundry Association Limited

Hong Kong Foundry Association is the only industry-leading organization in Hong Kong's foundry industry, enjoying high visibility and influence both domestically and internationally. The association currently has more than 500 member companies, the vast majority of which have operations and production bases in both Hong Kong and mainland China.

Our businesses cover various aspects of foundry manufacturing, environmental protection and die-casting equipment production, die-casting alloy production, raw material supply, foundry product trading, and foundry surface treatment. The products manufactured range from daily household items, 3C products, toys, and automotive engine cylinder blocks to components for aerospace and other large-scale equipment. Product sales are global, providing comprehensive services and support.

## OBJECTIVES OF THE HONG KONG FOUNDRY ASSOCIATION

- 1.To promote and safeguard the sustainable development and collective interests of the foundry and die-casting industry in Hong Kong and the Mainland China, enhancing industry cohesion and collaboration.
- 2.To strengthen unity and communication among member enterprises, facilitating resource sharing, technical exchange, and business cooperation across the industry value chain.
- 3.To foster cooperation and connectivity between Hong Kong, Mainland China and overseas foundry industries, promoting international exchange and market development.
- 4.To support talent development and technical advancement through industry training, education programmes, and knowledge-sharing initiatives.
- 5.To act as a platform for industry representation and dialogue with government and related organisations, contributing industry insights and policy recommendations.
- 6.To promote professionalism, innovation, and responsible business practices, supporting the long-term growth and global competitiveness of the foundry industry.
